

AG142 – GLASS MOUNT ANTENNA

5/8 Wave Dual Band Colinear Antenna – Vertical Polarisation

Frequency: GSM: 880 – 896MHz / 900MHz USA
PCN: 1710 – 1880MHz
UMTS: 2.1GHz
Gain: 5dBi
VSWR: Less than 2:1 in all bands
Impedance: 50Ω

Physical Data

Gross Dimensions: 316 x 35 x 51mm Black ABS Plastic (Base).
Mounting: Through Glass, Double-sided adhesive pad,
0.8mm thick
Operating Temp: -40°C to +140°C

The above data is to be used as baseline information only. For a more detailed specification, application support or application approval samples, please contact our technical support help desk on +44(0) 2392 327 020. We reserve the right to modify the specifications without prior notice.

Cable Length: 5m RG58 (-0mm, +100mm)
Connectors: FME (f) Nickel-plated brass crimp type
